

Home & Garden Award

2761 2nd Avenue North

Tom and Deborah Bogan, recent transplants from New York state to Historic Kenwood, bought the tired old house on the corner of 28th Street that for decades had served as a neighborhood doctor's office. Under all the faded green paint and behind the hundreds of jalousie window panes enclosing the porch, they saw the beautiful lines of this historic bungalow. Today, the glorious original Cuban tile, windows and all the classic decorative elements are highlighted by the fresh new paint and landscaping. Best of all - the porch is again wide open and ready for visitors to enjoy!
