

## Mark Frisman Gallery

This gallery recently opened on the burgeoning 2900 block of Central Avenue. The gallery specializes in high end, mid century pieces by well known American and European designers. A 1stdibs dealer since 2004, Mark Frisman has been a fixture in NYC and Hudson, NY. He has been a champion of such classic designers as T.H. Robsjohn-Gibbings, Edward Wormley, Charles Eames, and many others. However Frisman said, "I don't want to be yet another mid century store." He wants to combine vintage pieces with contemporary art by young and up and coming artists. Elegant presentation and an unusual mix of furniture, lamps, art, and textiles will make it a must stop for designers, decorators, and collectors. By purchasing the property at 2924 Central Avenue, Frisman plans on becoming a fixture in the Grand Central District. [www.markfrisman.com](http://www.markfrisman.com).
