

# Miles Automotive

2736 9th Ave N

I would like to nominate Miles Automotive for Great Business of the Month. I took my SUV to Mike at Miles almost a year ago and had all four rotors and brake pads replaced. Just shy of a year later, I was having trouble with the brakes, and during a dealer oil change, they informed me that the rotors would all need to be replaced as the brake pads were wearing into the rotors. I got that sinking feeling in my stomach -- you know the one -- the "uh-oh. Here we go again, and this is going to be expensive" feeling. So I took the car to Miles, bracing myself for pushback as it had been nearly a year. They looked at the car, drove it, and agreed that there was a problem, defective parts, and said they would fix it. I was so pleasantly surprised when I picked it up that they did the entire job for free, parts and labor. There are not many businesses like this -- and I would not hesitate to take my car back to them and to recommend them to others. The longtime and family, operation is located at 2736 9th Ave N or call them at 323-0180.
